INSPIRED BY NATURE

Driven by our desire to be closer to nature and enhance our well-being, essential oil blends continue to be in demand.

Growing consumer interest in natural, plant-based wellness products has seen this market thrive. As a result, brands are keen to incorporate essential oil blends into personal care, home cleaning and home fragrance.

And whilst these natural essential oil blends continue to garner interest, the practicalities of these scents are hard to convey to consumers, especially when these oils are more suited to specific product types than others.

A woman with dark hair, wearing a beige short-sleeved dress, is sitting in a room with large windows. She is looking down at her hands, which are clasped together. In the foreground, there is a wooden table with various items: a small jar, a candle, a bowl, and a small plant. The background shows a window with a view of a garden and some plants. The left side of the image has a green overlay with white text.

NATURAL BLENDS COLLECTION

This collection is our interpretation of some of the most sought-after essential oil blends.

Each blend is thoughtfully crafted to support specific moods and needs, from relaxation and calmness to focus, energy or balance.

Our collection harnesses the power of nature by combining pure, complementary essential oils that work harmoniously together to nurture both body and mind through scent.

Each of the six fragrances within the collection has been selected for their emotional and sensory impact whilst aligning with wellness trends and consumer preferences.
